# MICRO BIRD® G5 GM - SCHOOL BUS

### Versatile transportation for up to 30 passengers

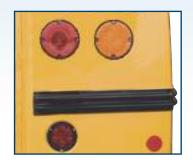

Integrated child seats and 3-point lap and shoulder seat belts are available for enhanced safety and versatility.

Maximum visibility of loading zone is provided by fully-glassed entrance door and unobstructed "More-View" window.
Standard 32" electric

double-opening door.

LED clearance lights, direction lights and stop lights are standard equipment offering enhanced safety, while reducing operating and maintenance costs.

#### Also Available:

Special needs Micro Bird with double-leaf wheelchair doors offer protection on both sides of the lift, thus adding to passenger safety, while offering superior weather seal and door strength.

#### **Galvanized Steel Structure and Side Impact Barriers**

- Steel body frame ensures that all exterior elements, including dust, moisture and noise, remain outside the passenger compartment.
- Superior side impact protection is offered by the use of heavy-gauge steel side impact barriers that incorporate the seat rail into the design for extra strength.

### Double Action Energy Absorbing Body Mounting Blocks

- Absorb road vibration
- Reduce noise transfer to the cabin interior
- Offer extended body durability
- Smoother passenger ride
- Prevent frame collapse
- Eliminate the need for periodic tightening of body bolts

#### **Superior Insulation**

- 1.5" fiberglass throughout
- Insulated roof bows
- Reduction in noise transfer into passenger compartment
- Prevents condensation

#### Extra Wide Body Design

- Aerodynamic styling
- Wider seating for increased comfort
- Wider aisle for increased safety
- Better compartmentalization

#### **Floor Plans**

A wide range of configurations to better accomodate your needs.
